

Product: Slide Latch with Internal Release  
 Part N°: AR

- Head Modules
- Core Modules
- Base Modules
- Cables & Accessories

» Slide Latch with Internal Release AR

### Slide Latch Wit Internal Release

- eGard Slide Latch is suitable for mounting to either sliding or hinged doors
- Self aligning feature, +/- 7.5mm (vertical), +/- 5mm (horizontal)
- Both left and right door handling
- IR Lock In / Non Locking In versions available
- Secure visible latch feature
- Dual slotted fixings for adjustability
- Available for different door depths
- Variety of IR colour caps

*To be used in combination with a HM head module.*

*Not to be used in conjunction with mechanical or electrical locking modules*

### eGard range

eGard offers "Total access & control". The innovative modular design allows configurations of purely safety gate switches, purely trapped key interlocks, purely machine control stations or any combinations of all three. Suitable for use up to SIL3 (EN/IEC 62061), Category 4 and PLe (EN/ISO 13849-1).

### Technical Specification

Housing Material	PBT
Colour	Dark Grey
Ambient Temperature	-5°C to +40°C
Actuator Material	Stainless Steel
Bracket Material	Aluminium
Operating Force	N
Retention Force	N

### Part Numbers

IR Operation Type		Part N°	
Slide Latch Lockable		AR L	
Slide Latch Non-Lockable		AR N	
IR Cap Colour		Part N°	Part N°
Black	N	Yellow	Y
Blue	B	Green	G
Red	R		
IR Door Depth		Part N°	
40mm		040	
60mm		060	
80mm		080	

### Lockout Plug

**LE**

Optional padlockable lock-out plug, see LE datasheet for more information.

- Incorporates three padlock holes.
- Accepts padlocks from 3 - 8mm.
- Securely cabled to head module.
- Cable length - 125mm
