

BANNER[®]
more sensors, more solutions

EZ-LIGHT[™]
Indicator Lights and
Pick-to-Light Sensors
SECOND EDITION

Banner lights the way for Lean manufacturing.

A level of reliable operator guidance or simple indication. Easily installs and operates with virtually no maintenance—using as little energy as possible.

Beyond Andon: EZ-LIGHT™, the next generation of visual indication

Banner's EZ-LIGHT™ family of products provides numerous solutions for visual process management and operator guidance. From innovative multi-color indicator lights to pick-to-light and sequence-guided assembly, error-proofing and productivity solutions, EZ-LIGHT replaces conventional indicators and devices, providing process refinement in ways never before possible. Incorporating sensor technology into operator guidance indicators ensures virtually error-free assembly and the highest levels of productivity.

EZ-LIGHT™ solutions

- Deliver real-time operational status indication for workers and supervisors
- Eliminate false readings from stray light; always appear gray when off
- Prompt operators and guide sequential part selection
- Verify correct action with sensor or push-button indication
- Offer point sensing or arrays for wide area pick-to-light
- Feature compatibility with PLC or other logic-level control outputs
- Install quickly and easily with pre-wired or quick-disconnect options
- Promote high visibility from all angles
- Reduce costs, defects and Muda (waste)
- Improve plant flow, productivity and efficiency

EZ-LIGHT™ Product Features

EXAMPLE APPLICATIONS

Process Status

Overhead Door & Gate Status

Vehicle Position Indicator for Outdoor Applications

Call for Service

Line Problem Call

A complete range of models and styles

- Smart **General-Purpose** indicators displaying up to three colors in one device
- **Multi-Function** indicators displaying up to five colors with solid, flashing or sequenced flashing cycles
- **Sensor Emulator** indicators displaying sensor status where sensor visibility is obscured or limited
- **Segmented** indicators delivering simultaneous one, two, three or four color display for multiple status indication
- **Daylight Visible** indicators generating intense levels of light output for outdoor applications or areas of high ambient light
- **Audible** indicators combining visible light indication with audio alerts
- **Pick-to-Light** indicators and sensors reducing assembly and picking errors, improving product quality while reducing costs

Specify your EZ-LIGHT™ in 4 Easy Steps

1. Choose your housing

2. Choose color, function, voltage

Mounting solutions for any application

- Installs quickly with a single drilled hole and many mounting options

Cabinet mounting

Surface mount

Standoff pipe and protective brackets

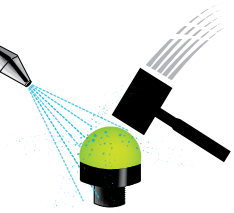

Base, nose and DIN-mount brackets

- Includes models with 22 or 30 mm threaded base for panel mounting
- Features mounting hubs for both EMT and gas/water pipe mounting (K50L model)
- Offers models and accessories for machine- and wall-mounting, as well as ceiling suspension

Robust, durable, green and Lean design

- Completely self-contained operation—no controller needed
- Extremely long-lasting LED technology providing >100,000 hours (11 years continuous) working life
- Very low power consumption: <1W for most DC models, <2W for AC models—compare to competitive units that consume up to 15W
- Ergonomic, lean shape that sheds debris and moisture
- No hook hazards for moving equipment and personnel—unlike conventional stack lights
- Robust IP67/IP69K-rated, water- and oil-tight industrial housings for direct machine mounting
- Rugged, compact design that is cost-effective and easy-to-install
- Shock, vibration and impact resistant
- Compatibility with AS-i modules and fieldbus splitter boxes

EXAMPLE APPLICATIONS

Process Inspection Indicator

4-Color Point-of-Use Indicator

Remote Level Indicator

Cabinet-Mount Status Indication

Elevated Indication with Audible Alert

3. Choose input type

4. Choose your connection

NPN/PNP

-OR-

85-130V ac

Attached Cable

PVC or PUR Pigtail QD

Integral QD

Terminal-Wired

Numerous color display options

- Single devices displaying up to 5 colors each—replacing multiple indicators to save panel space and costs
- Models with 31 functions for steady, flashing or alternating colors
- Excellent but non-aggressive light brilliance and visibility for operators

EZ-LIGHT™ Model Guide

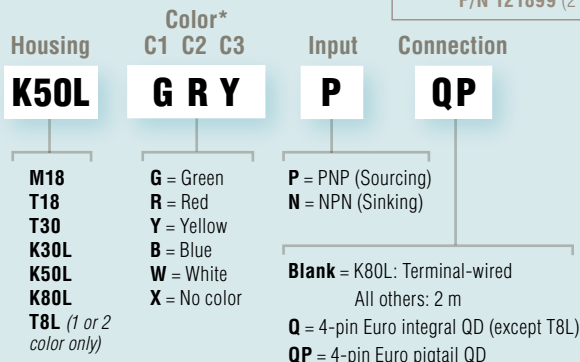

Specify your model in 4 easy steps:

1. Choose your housing
2. Choose your color, function and voltage
3. Choose your input type
4. Choose your connection

General Purpose: DC Models

Hookup Diagram: **HK01**
 Online Data Sheet:
 P/N 130865 (1 color)
 P/N 121899 (2 & 3 color)

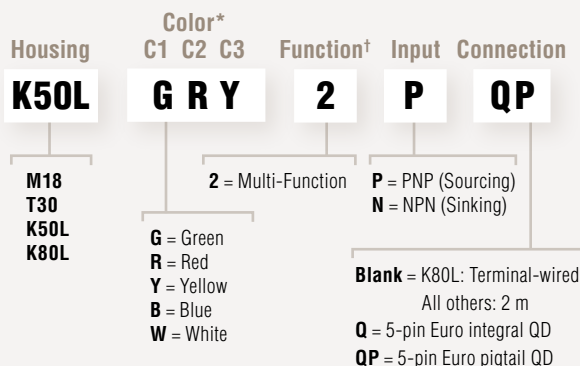

General Purpose: AC Models

Hookup Diagram: **HK02**
 Online Data Sheet: P/N 134548

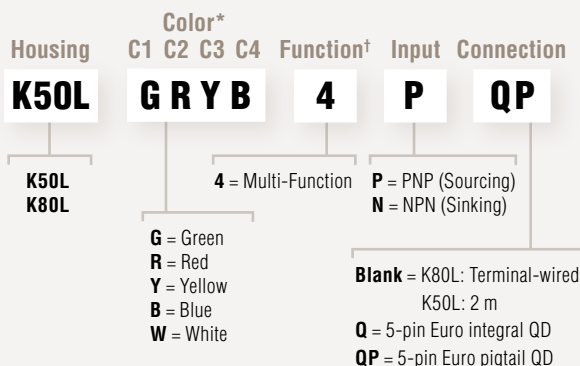

Multi-Function: 3 Color

Hookup Diagram: **HK03**
 Online Data Sheet: P/N 121902

Multi-Function: 4 Color

Hookup Diagram: **HK03**
 Online Data Sheet: P/N 137329

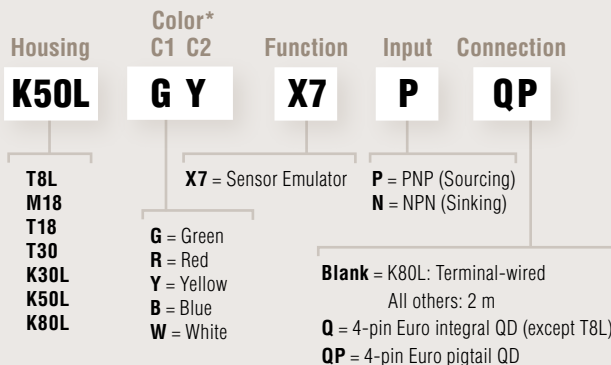

Multi-Function: 5 Color

Hookup Diagram: **HK04**
 Online Data Sheet: P/N 131413

Sensor Emulator: 2 Color

Hookup Diagram: **HK05**
 Online Data Sheet: P/N 121900

*Number of colors are determined by C1, C2, C3, C4, C5 specified in model guides.

General-purpose models (DC only): For less than 3 colors, use X as a model placeholder (example, **K50LGXXQP** for green only).

†LED function of ON steady, flashing or alternating (depending on hookup).

Note: Many other colors are available

*No color: General Purpose and Daylight Visible only

NOTE: For reference only; confirm model number with Banner as some configurations are not available.

Segmented

Hookup Diagram: HK03
Online Data Sheet: P/N 132728

Housing	Segment Configuration	Color* C1 C2 C3 C4	Function	Input	Connection
K80L	4	G R Y B	1	P	Q

K80L
4 = 4 segments
3 = 1 half & 2 qtr.
2 = 2 halves
1 = Entire area

Blank = 4 segments or no segments
H = Horizontal split
TH = Top half

Color*
G = Green
R = Red
Y = Yellow
B = Blue
W = White
X = Place holder

Function
1 = Micro Programmed

Input
P = PNP (Sourcing)
N = NPN (Sinking)

Connection
Blank = Terminal-wired
Q = 5-pin Euro QD
QP = 5-pin Euro pigtail QD

*For less than 4 colors, use X as a model placeholder (example, **K80L2HGRXX1PQ** = 🟢)

Audible

Hookup Diagram: HK03
Online Data Sheet: P/N 135242

Housing	Color C1 C2	Audible Alarm	Color C4	Input	Connection
K50L K80L	G R	A2	Y	P	QP

G = Green
R = Red
Y = Yellow
B = Blue
W = White

A1 = Steady tone
A2 = Pulsed tone
AL1 = Loud steady tone

Blank = K80L: Terminal-wired
K50L: 2 m

Q = 5-pin integral QD
QP = 5-pin Euro pigtail QD

Input
P = PNP (Sourcing)
N = NPN (Sinking)

Daylight Visible

Hookup Diagram: HK01
Online Data Sheet: P/N 137330

Housing	Color* C1 C2 C3	Input†	Connection
K50LD	G R Y	P	QP

K50LD

Color*
G = Green
R = Red
Y = Yellow
B = Blue
W = White
X = No color

Input†
P = PNP (Sourcing)
N = NPN (Sinking)

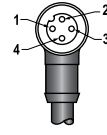

Connection
Blank = 2 m
Q = 4-pin integral QD
QP = 4-pin Euro pigtail QD

*For single color models with full brightness, use **XC2X** in model number (example, **K50LDXGXPQP**).
For single color models with intensity control of one color, use same color for C1, C2, C3 (example, **K50LDGGGPQP**).
11-color models are PNP/NPN selectable.
