212 Colfax Ave. N.

Minneapolis, MN 55405 US

**Phone:** 612-374-2150 • **Fax:** 612-374-2467**E-Mail:** daltongear@worldnet.att.net**Shaft Mounted Tensioner**

- No stripped out threads in the split base because 2 locking screws are used in a strong Ductile iron base.
- No slippage on mounting shaft occurs because the locking screws insure a firm and uniform lock on the mounting shaft.
- The split base is available with a one inch shaft size as stock and can be supplied for other shaft sizes upon request.
- Please call for discounts on list prices.
