## EDWARDS

## 3/8" Diameter Press Fit With Wire Leads 1075 Series

## Applications

- 3/8" press-fit mounting; no screws or glue needed
- Heavy-duty housing resists crushing

## General Specifications

| Enclosure | ABS Plastic |
| :--- | :--- |
| Temperature Range | $-40^{\circ} \mathrm{F}$ to $150^{\circ} \mathrm{F}\left(-40^{\circ} \mathrm{C}\right.$ to $\left.65^{\circ} \mathrm{C}\right)$ |
| Environmental | Hermetically Sealed Reed Switch |
|  | Encapsulated in Polyurethane |
| NEMA Rating | $1,2,3,4,4 \times, 5,6,12$ |
| Protection Class | IP 67 |
| Response Time | 1 msec max. |
| Life Cycles | 100,000 Under Full Load, |
|  | $10,000,000$ Under Dry Circuit |
| Lead Types/O.D. | \#22 wire / 0.05" (0.15cm) |
| Color Choices | Natural(N), Mahogany(M) |
| UL/ULC Listed | All Models |

| Order Information |  |  |  |  |  |  |  |

## Warning-Each electrical rating is an individual maximum and cannot be exceeded!

1 Configuration with actuator away from the switch
2 Proximity of ferrous materials usually reduces sense range - typically by $50 \%$. The shape and type of material cause a wide diversity of effects. Testing is required to determine actual sense range for specific applications. As measured on a nonferrous surface. Gap distances are nominal make distance $\pm 20 \%$. Gap Specifications are for switch to make. Break distance is approximately 1.1 to 1.5 times make.
