

Cat. No. 7930

Cat. No. 7930L

Wall Stations

7930 & 7930L

FEATURES

- > Stainless steel face plate
- > May use either single or dual button calling cords

SPECIFICATIONS

- > 24V AC (Use Cat. No. 88-50 or 88-100 transformer. See pg 11-5)
- > Contact rating: 2 amps

The Edwards 7930 & 7930L Wall Stations provide convenient call activation. Calls are placed by activating a locking button calling cord. The 7930L has a lamp on the front of the unit which illuminates when a call is made, indicating that the call has been properly placed. Calls are automatically placed if the calling cord is accidentally pulled from the receptacle. Calling cord must be ordered separately.

Use in public and private rest rooms.
