JP EU公用語で書かれた最新の取扱説明書は、インターネット (www.schmersal.net) からダウンロードできます。

Destination and use

On accessible protective equipment, the lockout tag prevents persons from being inadvertently being trapped.
When accessing the hazardous area, the operating or service staff fixes a padlock to the lockout tag.
1 up to 6 padlocks with a maximum shackle diameter of 6 mm can be fixed.
The lockout tag blocks the insertion hole of the actuator, so that the safety guard cannot be locked, thus preventing an unauthorised machine start.

Application

Mounting
