

## Klippon® Relay

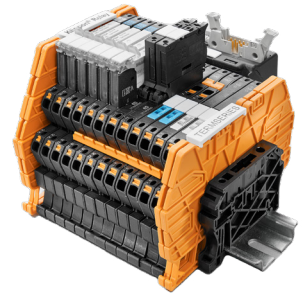

### TERMSERIES-compact accessories

#### Increase productivity in control cabinet wiring

##### Precisely fitting accessories for TERMSERIES-compact

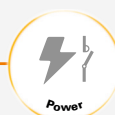

With TERMSERIES-compact, the well-proven TERMSERIES is extended by a particularly space-saving and vibration-proof variant. In addition to the compatible TERMSERIES accessories, the custom-fit range of accessories makes daily work easier.

To simplify and optimise wiring processes, special feed-in terminals, feed-through terminals, and partition plates have been developed for TERMSERIES-compact. The new feed-in and feed-through terminals increase flexibility in potential distribution and simplify wiring. The height of the partition plates has been adapted to the flatter format of TERMSERIES-compact. They facilitate the structured installation of the relays as well as the separation of different voltage ranges.

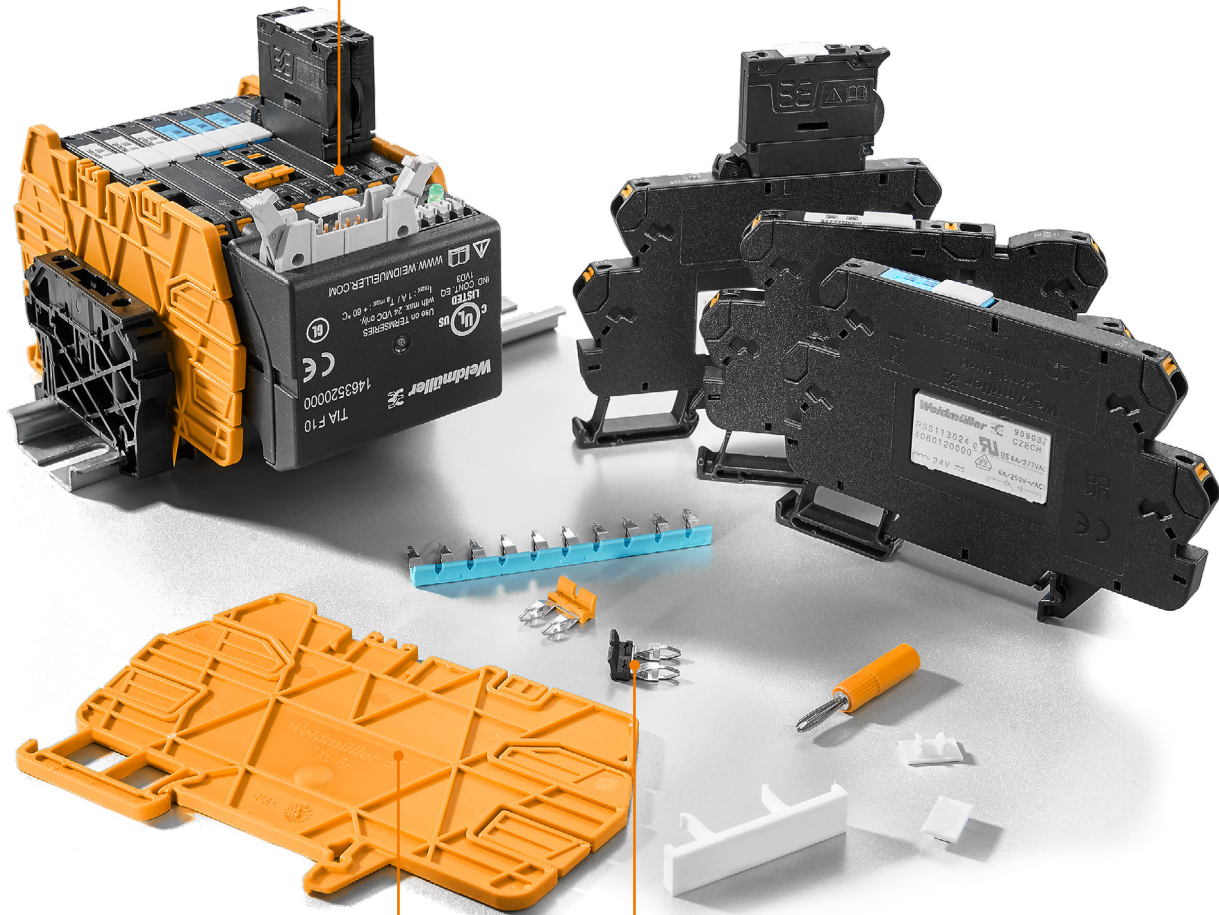

#### Your special advantages:

- Space-saving feed-in terminals**  
 For easy feed-in of neutral or negative potentials at the input of switched potentials at the output. Cross-connections enable space-saving connection of sensors and actuators without additional feed-through terminal blocks.
- Versatile partition plates**  
 With the precisely fitting partitions, signals can be grouped visually, assemblies can be galvanically separated or clearly arranged labels can be added. Perforations allow cross-connection channels to be broken out individually.
- Precision-fit feed-through terminals**  
 The precisely fitting terminals enable potentials to be brought from the control side to the load side and vice versa. Due to the compatibility with the TERMSERIES, there is a uniform test system with a standardised test tap.

Precisely fitting supplementary accessories for TERMSERIES-compact

Safe separation of different voltage ranges

More efficient wiring and better overview in the control cabinet

**Technical data**

Type	Version	Clamping range min. / max.	Qty	Order No.
TXL S	Supply terminal	0,14 - 2,5 mm <sup>2</sup>	1	2774100000
TXL FT	Feed trough terminal	0,14 - 2,5 mm <sup>2</sup>	1	2774080000
TXL PP	Partition plate		10	2774090000
